

PEERLESS 21' DRYING TRAILER

Built to perform conditions with rear axle oscillators, a ball bearing 5th wheel and a front axle with two rocking bolsters. It's available with a side or rear opening of either 14" X 48" or 17 1/2" X 50". Standard equipment includes spindle sleeves with bolt-on spindle, clean out doors, 9.5L 8 ply implement tires, a heavy duty rear bumper, 14 gauge bottom, floors and tongue support. This trailer is built with a rated hauling capacity of 7 1/2 tons. Optional FI tires are available. For easier unloading, our standard trailer is equipped with a rear gate that is hinged across the top.
