

"The folks that invented peanut drying."

WHISPER DUAL DRYER

This is the same dependable Peerless dryer with a backward incline blower. It's being used all over the world to dry various products. It boasts the new style burner providing maximum energy efficiency, heat output and durability. This dryer offers simple controls, lasts longer and requires fewer replacement parts. The dual is used to dry 2 trailers at once or one trailer by closing off either side with the swing gate. It's available with our optional automatic temperature controller, the PeerStat, comes in single phase or 3 phase and will operate off of Natural or LP gas.
