

PEERSTAT AUTOMATIC TEMPERATURE CONTROLLER

Here it is!! A temperature controller that puts you in control...automatically! The PeerStat is simple to install, and even more simple to operate. Set your maximum temperature limit. Set your desired degrees above ambient. The PeerStat does the rest. The PeerStat's digital display shows both the temperature at the set point and the ambient temperature. The PeerStat works on all dryers regardless of make or model. Splits and gas consumption are a problem; especially on those cool Fall nights. For best results, use the PeerStat. You know how to dry peanuts properly, now you've got the PeerStat that will do the work for you...automatically!
